

Blessed Sacrament Redevelopment – Community Update October 22, 2025

Dear Neighbors,

We want to provide an update on upcoming construction activities at the Blessed Sacrament redevelopment site at 361 Centre Street.

Demolition Schedule

The first phase of demolition process is scheduled to begin the **first week of November (targeting November 3rd)** and will last approximately four weeks. The first two weeks of November will be the loudest period, particularly as the North side of the church is removed. This phase will involve saw cutting and structural removal work. There will also be some intermittent saw cutting work on October 30 and 31st.

Construction Hours of Operation

Work will continue to occur **Monday through Friday, between 7:00 AM and 3:00 PM**. No demolition or construction work will take place outside of these hours.

Ongoing Site Safety and Monitoring

Vibration monitoring equipment has been in place and collecting readings since September 26, 2025 to ensure that demolition and construction activities remain within safe limits for nearby structures.

Additionally, overhead scaffold protection, perimeter lighting, and updated fencing configurations have been installed for public safety and accessibility.

We appreciate your continued patience and cooperation as we move through this next phase of work. Our construction team remains committed to minimizing disruption wherever possible.

Sincerely,

The Blessed Sacrament Redevelopment Team
